PROGRAM CURRICULUM

WHO CAN DO THIS COURSE ?

This Big Data course is ideal for Business Analysts who want to enhance their data processing and analytical skills. It is designed for those already familiar with tools like Excel, Power BI, or Tableau and looking to expand their ability to handle larger, more complex datasets. The course covers Big Data technologies like Hadoop, Spark, and Hive, helping Business Analysts integrate these tools with existing BI platforms. It also introduces real-time data processing and basic machine learning techniques. By completing this course, Business Analysts will be able to perform advanced analytics, derive deeper insights, and make more informed, data-driven decisions.

WHAT YOU GET ?

- 3 months training on Business Analysts
- Placement starts after 3 months
- 90 hrs of learning | Completely **LIVE**
- 100% Guaranteed placement after program completion
- projects + Capstone projects
- Flexible curriculum + Lifetime access + Certificate

Business Analysts

Nexus is one of its kind Institute which not only equips you in technology skills but will train you for free in Aptitude skills, Soft Skills, Mock Interviews, Interview Skills, Work ethics and Corporate Values that you need to know to get into IT Industry. Our training is given by expert real time development experienced trainers and we enable each and every student of ours to do their own real time projects by the end of the program. We do not buy you a job by bribing companies to secure a place in IT, instead we equip you with the skills needed to get employed in IT and will support you with unlimited number of relevant interview opportunities so that your career in IT becomes assured. Our support will be there until you get placed in an IT Company as that's our mission too. If you want to just have an IT certification, you can do your course anywhere. If you aspire to get into an IT Job, then you should choose Nexus. With Nexus, your IT dream will definitely come into reality. Please go through the long list of our student reviews.
