## PROGRAM CURRICULUM

# WHO CAN DO THIS COURSE ?

A medical coding course is ideal for individuals interested in building a career in healthcare administration. It is suitable for fresh graduates in life sciences, non-healthcare graduates, and healthcare professionals like nurses or medical assistants looking to upskill. AR Callers and medical billers can enhance their understanding of coding systems to improve claim management. The course is also great for career changers, homemakers, and those seeking remote work opportunities. International aspirants targeting U.S. healthcare roles can benefit from learning ICD-10, CPT, and HCPCS codes. With high demand, this course suits anyone detail-oriented and interested in a structured, well-paying career.

## WHAT YOU GET ?

- 3 month training on Medical Coding
- Placement starts after 3 months
- 90 hrs of learning | Completely **LIVE**
- 100% Guaranteed placement after program completion
- 9 Micro projects + Capstone projects
- Flexible curriculum + Lifetime access + Certificate

# **Medical Coding**

Nexus is one of its kind Institute which not only equips you in technology skills but will train you for free in Aptitude skills, Soft Skills, Mock Interviews, Interview Skills, Work ethics and Corporate Values that you need to know to get into IT Industry. Our training is given by expert real time development experienced trainers and we enable each and every student of ours to do their own real time projects by the end of the program. We do not buy you a job by bribing companies to secure a place in IT, instead we equip you with the skills needed to get employed in IT and will support you with unlimited number of relevant interview opportunities so that your career in IT becomes assured. Our support will be there until you get placed in an IT Company as that's our mission too. If you want to just have an IT certification, you can do your course anywhere. If you aspire to get into an IT Job, then you should choose Nexus. With Nexus, your IT dream will definitely come into reality. Please go through the long list of our student reviews.

## **Medical Coding Syllabus**

The medical coding syllabus is designed to provide comprehensive knowledge of medical terminologies, coding systems, and healthcare compliance standards. Below is a structured outline

### **1. Introduction to Medical Coding**

- Overview of medical coding and its importance in healthcare.
- Role of a medical coder in revenue cycle management.
- Introduction to coding systems: ICD, CPT, HCPCS.
- Overview of healthcare insurance processes and terminology.

## **2. Medical Terminology**

- Basic medical prefixes, suffixes, and root words.
- Anatomical terms and body systems.
- Understanding medical procedures and diagnoses.

## **3. Anatomy and Physiology**

- Overview of human body systems (e.g., cardiovascular, respiratory, digestive).
- Common diseases and conditions affecting each system.
- Procedures and treatments for major systems

## **4. ICD-10-CM Coding**

- Structure of ICD-10-CM (International Classification of Diseases).
- Guidelines for coding diagnoses.
- Hands-on practice with ICD-10-CM codes.
- Coding for diseases, symptoms, and external causes.

## **5. CPT Coding**

- Introduction to CPT (Current Procedural Terminology).
- Structure and categories of CPT codes (Evaluation & Management, Surgery, etc.).
- Guidelines for procedure coding.
- Practical examples and exercises.

## **6. HCPCS Coding**

- Introduction to HCPCS (Healthcare Common Procedure Coding System).
- Coding for medical supplies, equipment, and medications.
- Differences between HCPCS Levels I and II.

## **7. Billing and Insurance Guidelines**

- Overview of the claims process.
- Understanding EOB (Explanation of Benefits) and ERA (Electronic Remittance Advice).
- Common reasons for claim denials and resolutions.

## **8. Compliance and Legal Guidelines**

- HIPAA compliance and patient data security.
- Fraud, abuse, and coding ethics.
- Importance of accurate documentation.

## **9. Coding Software and Tools**

- Introduction to coding software like EncoderPro or 3M.
- Using Electronic Health Records (EHR) for coding.
- Introduction to Excel for coding analysis.

## **10. Practice and Certification Preparation**

- Mock coding scenarios and case studies.
- Practice tests for AAPC and AHIMA certifications (e.g., CPC, CCA).
- Tips for passing certification exams.
